

23rd July 2015

Gold Coast, Australia. Pivotel Satellite, Australia's leading mobile satellite provider, was named the winner of the prestigious Australian Communications Alliance & CommsDay (ACOMMS) Satellite Provider of the Year Award for 2015. Innovation, dedication to a satellite based technology and constant product evolution has led to Pivotel being awarded the honour of ACOMMS Satellite Provider of the Year for its Tracertrak exception management system.

Pivotel's Tracertrak system provides global satellite based resource tracking and monitoring solutions designed specifically to improve safety and efficiency within enterprise and government organisations and is in use across Australia, New Zealand, Papua New Guinea and Indonesia. "Recognition as the ACOMMS 2015 Satellite Provider of the Year is a tremendous achievement for Pivotel and validates our long held commitment to innovation in the delivery of our services," said Pivotel Satellite Group CEO Peter Bolger.

"Tracertrak in particular has achieved a market leading position in enterprise remote worker safety by delivering a range of highly cost effective, simple to use remote worker monitoring solutions that help organisations to cost effectively manage the safety of their workers and to escalate requests for assistance or missed check-ins."

About the Australian Communications Alliance & the ACOMM Awards

Communications Alliance is the peak body for the Australian communications industry. Through a range of successful programs, events and initiatives, Communications Alliance has a leadership role in facilitating industry-based solutions to sectoral issues and is taking steps to bring to fruition the broadband and digital era, including leading the industry's involvement in the National Broadband Network implementation.

The ACOMM Awards, a collaboration of Communications Alliance and Communications Day, recognise excellence in the wider communications industry, rewarding and profiling companies which have excelled within the industry around the nation, regardless of size, location, and whether service providers, vendors, or suppliers of professional services.
