## SPOT Trace

“Incredibly compact and easy to fit to almost anything”

The incredibly compact SPOT Trace is easy to fit to almost anything and it’s on board motion sensor means it will track when it’s moving and conserve battery life when it’s not. Ideal for tracking small assets, SPOT Trace will run off a single set of batteries for several months, or you can line power it using the optional weatherproof automotive line power cable.

### How to select your SPOT Trace Plan & Device Profile

Choosing a SPOT Trace rate plan and Device Profile is as simple as choosing what tracking frequency you want the device to report at while moving. The SPOT Trace Device Profiles with 5, 10, 30 & 60 minute tracking frequencies are all enabled on the Trak SPOT Trace Unlimited plan and the Extreme 2.5 minute tracking Device Profile is connected on the Trak SPOT Trace Extreme plan.

Choosing the right Device Profile is a trade-off between the frequency of location updates and battery life. The more your device updates, the more battery power it will consume if your device is not line powered.

### 1. Choose your plan based on your desired tracking frequency.

Plan	Monthly Access Fee	Included Locations	SMS
Trak SPOT Trace Unlimited Min. cost over 12 months is \$483	\$40.25	Unlimited	29c
Includes unlimited tracking at 5, 10, 30 or 60 minute intervals.			
Trak SPOT Trace Extreme Min. cost over 12 months is \$662.40	\$55.20	Unlimited	29c
Includes unlimited tracking at 2.5 minute intervals.			

Pricing Includes GST

### 2. Choose your Device Profile - how your device will work.

Profile	Daily Location (Heartbeat)	Reporting Frequency While Moving
Unlimited 5 min	each 24 hours	each 5 minutes
Unlimited 10 min	each 24 hours	each 10 minutes
Unlimited 30 min	each 24 hours	each 30 minutes
Unlimited 60 min	each 24 hours	each 60 minutes
Extreme 2.5 min (Only available with Trak SPOT Trace Extreme Plan)	each 24 hours	each 2.5 minutes

## SmartOne B & SmartOne C Tracking Units

Housed in a compact, rugged enclosure, SmartOne supports location tracking and two independent alarm inputs. SmartOne is delivered complete and ready-to-go. SmartOne operates for up to 3 years off a single set of 'off the shelf' lithium batteries, making installation simple with no need for an external power source.

### How to select your SmartOne Plan & Device Profile

Choose the right SmartOne Plan and Device Profile to best suit your needs. The Device Profile lets you dictate the time of your daily location report/s, the reporting frequency while moving and the time zone reference. The profile you select and how often your asset spends moving (if motion is enabled) will help you determine approximately how many location updates you will need each month when choosing a plan.

Choosing the right Device Profile is a balance between the frequency of location updates, running costs and battery life. More device updates require a larger plan and will also consume more battery power.

### 1. Choose your plan based on how many location updates you will require each month

Plan	Monthly Access Fee	Included Device Reports	Included SMS	Additional Device Reports	SMS

### 2. Choose your Device Profile - how your device will work

Profile	Daily Location Report(s)	Reporting Frequency While Moving	Timezone Reference
gTrak 24-60 NZST	1200 hrs	each 1 hr	NZST (GMT+12)
gTrak 24-480 NZST	0600 hrs	each 8 hr	NZST(GMT+12)
gTrak 12-0 NZST	0500 hrs, 1700 hrs	n/a	NZST(GMT+12)
gTrak 24-15 NZST	1200 hrs	each 15 min	NZST(GMT+12)

Need a different profile? Ask your Tracertrak representative. The device will begin to report at the defined frequency after the asset has been moving for approximately 5 minutes. The device will report that the asset has come to rest between 30 and 120 minutes after the asset has stopped moving (device dependent).
